<b><u>LICENSES</u></b>	Registered Professional Engineer in New York State. Certification through the Structural Engineering Certification Board	
<b><u>EXPERIENCE</u></b>	<b>GILSANZ MURRAY STEFICEK</b> ASSOCIATE PARTNER	<b>October 2010 to Present</b>
	<b>412 West 15<sup>th</sup> Street – New York, NY</b> GMS has been retained to provide façade and roofing consulting services for this new building located on 15th Street between Ninth and Tenth Avenues. The ground floor level will contain a large open retail volume as well as the entrance lobby for the office tower above.	
	<b>122 East 23<sup>rd</sup> Street – New York, NY</b> GMS is providing exterior envelope consulting services for this new mid-rise residential condominium building to be located at the through block parcel at the corner of Lexington Avenue between 22 <sup>nd</sup> and 23 <sup>rd</sup> Street.	
	<b>111 Eighth Avenue – New York, NY</b> GMS provided engineering and architectural services for this 17-story masonry building situated on the entire block between 8th and 9th Avenues and West 15th and West 16th Streets. This was the headquarters of the Port of New York Authority (now Port Authority of New York and New Jersey) before it moved to the World Trade Center and now houses commercial offices, retail, a parking garage, and a medical facility. It is approximately 207' x 800' in size and was constructed in 1931 in the art deco/art modern style. Facades consist of red brick masonry with “punched opening”, aluminum windows, metal/glass storefronts and exposed concrete on the ground floor.	
	<b>Uniqlo – 666 Fifth Avenue, New York, NY</b> Renovation of 85,000 sf for a new retail store with new elevators, escalators and signature façade treatment.	
	<b>Uniqlo – West 34<sup>th</sup> Street, New York, NY</b> Renovation for a new 45,000 sf retail space with new glazing, elevators, escalators with new atrium.	
	<b>180 Broadway Façade – New York, NY</b> GMS provided envelope consulting services for this new building of approximately twenty five stories that will incorporate portions of the structure of an existing building.	

**Lincoln Square Synagogue – New York, NY**

GMS provided supplemental façade consulting for this new 6-story synagogue on Manhattan's Upper West Side. The building envelope includes an innovative ribbon-like curtain wall, stone, and punched windows.

**525 Clinton Avenue – Brooklyn, NY**

GMS provided consulting services related to the continued investigation and remediation of the façade.

**Shelter Island Residence**

Structural engineering services for a new two story single family residence on Shelter Island, NY. The residence will be 4,500 sq ft with a partial basement on a hill overlooking the ocean to the east and forest to the west.
